Guess What This Does

Many of us are familiar with distillation columns as used in hydrocarbon processing facilities and similar installations. Here's a whiskey distillation column seen recently at a client. Of course distillation technology as used for the production of alcoholic beverages predates process industry use by a few thousand years or so.

Nice and shiny small bore piping!

Don't forget that sped is always on the lookout for member-written piping-related articles to publish at the website

No loss of life and only a few injuries. I do like the exchanger piping.

That'll buff right out.

Flexicraft is your one call for every style of expansion joint and flexible connector.

Welcome back to website advertiser, Flexicraft! Thanks for your continued support.

You probably have recently received a survey from SPED. If you haven't yet responded, please take a minute to let us know what types of web-based features you'd like to see at spedweb.com

Below is pasted a screenshot of some early results, final tally will be in the next SPED Update

See you next time!
